growth.

About WT

We empower our clients to grow, inspiring confidence through independent advice and inventive thinking to create sustainable value across all aspects of the built environment.

We are a leading international project advisory firm with more than 75 years of multi-sector experience.

Our clients can tap into the collective thinking of over 2,000 of the best people in the industry, operating from 70+ offices throughout Australia, New Zealand, Asia, India, Middle East, North America, Africa, the UK and Europe.

In Australia, we support our clients across property, construction and infrastructure with an award-winning team of 500 specialists in portfolio and program advisory, cost management and quantity surveying, commercial advisory, carbon and sustainability, asset and facilities management, and digital solutions.

Portfolio & Program Advisory

Realising benefits is why capital projects exist. From real estate portfolios to infrastructure programs and construction projects, we bring safe hands and fresh eyes to give our clients the best chance of success and long-term, sustainable value.

We understand that our clients want their time and money to really count. That means prioritising the portfolios, programs and projects that will deliver the greatest value and impact. It's about having effective controls, with accurate data at the right time and in the right format to enable good decisions. And it's about being able to trust that every person and every process is primed for success.

Clarity, capability and consistency are at the core of our approach to improving program performance, maintaining project control, reducing cost and risk, and delivering reliable outcomes.

There's no one-size-fits-all solution to optimise performance and results – because every organisation, portfolio, program and project is different. We develop bespoke approaches, tailored to our clients' needs, aspirations and budget.

Portfolio & Program Advisory

Controls and insights for capital performance

We create clarity in capital planning and maximise capital performance with strong project controls and data-driven insights.

Establishing the right approach, roles and culture

We ensure the right capabilities and management functions are in place to deliver projects successfully.

Consistent processes and dependable decision-making

We establish consistent frameworks and streamline processes to ensure reliable outcomes, efficiency and accountability.
